Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	The study provides a baseline data on the plankton community in a mangrove dominated estuarine ecosystem. As there is no report on plankton communities of the studied site, the present study is considered significant.	Thank you for recognising the significance of our study. The study offers useful baseline data on the plankton population in an estuary ecosystem that is dominated by mangroves. We think our findings add a great deal to scientific knowledge and may be used as a guide for upcoming ecological assessments, conservation, and management initiatives because there haven't been many studies conducted at this location before.
