PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	The study is highly relevant as it emphasizes the crucial role of insects, particularly butterflies, in ecosystems, including pollination and biodiversity.	
Is the title of the article suitable? (If not please suggest an alternative title)	The title is good but can be as -Structural Characterization of Appendages in Diverse Butterfly Species (Insecta: Lepidoptera): A Review.	The title has been rectified as per the reviewer's suggestion.

Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract is well-written and provides a good overview of the research. The minor suggestions above could further enhance its clarity- * Expand on "At rest, their wings are characterised." This sentence is incomplete. It could be more specific, such as: "At rest, their wings are held together upright above the body, which sets them off from all other insects." * Consider adding a sentence about the potential implications of this research. For example: "Understanding these sensory adaptations can provide valuable insights for conservation efforts and agricultural practices"	The rectifications and additions have been done in the abstract so as to make it more illustrative and self explanatory.
Is the manuscript scientifically, correct? Please write here.	Yes but could include an conclusion and add a few more references	Conclusion and new references added.
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Can include a few more but references should be in APA format and arranged alphabetical order	Rectified as stated.
Is the language/English quality of the article suitable for scholarly communications?	Yes	The language of the paper has been proofread by the language expert once for enhancing the quality of the manuscript.
<u>Optional/General</u> comments	Please do revise and make changes	The changes suggested by different reviewers have been done. The abstract has been modified. The ecological significance of butterflies and especially their appendages has been added.
