Is the manuscript scientifically, correct? Please write here.	This manuscript scientifically correct. In this study Normal control was used in rat model. But not used Positive control of Drug. If you use Positive control of Drug. This Research work will be more effective in medicinal industry.	Yes, your observation about including the standard drug to enhance the study is valid. However, our current focus is on the effects of quinic acid. In the future, we will consider incorporating your suggestion. Initially, while applying for ethical clearance, we did include a group with the standard drug. However, the committee members recommended removing that group since the efficacy of the standard drug has already been well established, making it unnecessary.
