Manuscript Number:	Ms_UPJOZ_4605
Title of the Manuscript:	Spiders Diversity in North East Gariaband Forest Regions of Chhattisgarh, India
Type of the Article	Original Research Article

#### **PART 1: Comments**

	<b>Reviewer's comment</b> <b>Artificial Intelligence (AI) generated or assisted review comments are strictly prohibited during peer review.</b>	<b>Author's Feedback</b> <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<b>Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.</b>	This manuscript significantly advances the scientific community's understanding of spider diversity in India. Building upon foundational works like "Spiders of India" and "A Field Guide to the Spider Genera of India," it provides updated insights into species distribution and taxonomy. Such comprehensive documentation is crucial, especially considering the role of spiders as bio-control agents in agriculture, where they naturally regulate pest populations. Furthermore, the manuscript's findings can inform conservation strategies, highlighting the importance of preserving spider habitats to maintain ecological balance. Overall, this work enriches our knowledge of arachnid biodiversity and underscores the ecological significance of spiders in India's ecosystems.	The present manuscript is Described the diversity of Spider found in Chhattisgarh. This study is done in the North East Region of Gariaband In which a lot of spider species has been documentation ..
<b>Is the title of the article suitable? (If not please suggest an alternative title)</b>	The article titled "Spider Diversity (Arachnida: Araneae) in Deobhog Region, Gariyaband, Chhattisgarh, India" appears to have a suitable and descriptive title. It clearly indicates the focus on spider diversity within a specific region in Chhattisgarh, India.	No present manuscript describe the spider Diversity in North East Gariaband Regions of Chhattisgarh, India.

<b>Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.</b>	The abstract provides a concise overview of your research on spider diversity in the Gariyaband region. To enhance its clarity and comprehensiveness, consider the following suggestions, Specify the Research Objectives, Highlight Key Findings, Discuss the Implications, Refine Language and Structure, and Ensure the abstract is concise and free of grammatical errors.	Limited things have been told in this article's abstract. Therefore, I do some points and do well and clear well.
<b>Is the manuscript scientifically, correct? Please write here.</b>	Yes, the manuscript appears scientifically correct, with well-defined methodology and robust data analysis. It follows standard practices in morphometric studies and offers valid conclusions based on the observed results.	Yes , the manuscript provide knowledge about spiders in Chhattisgarh state.
<b>Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.</b>	The manuscript provides a comprehensive overview of spider diversity in Gariaband, Chhattisgarh, India, referencing several pertinent studies. However, to enhance the manuscript's depth and currency, incorporating more recent and region-specific references.	I think that references are sufficient because no another Research Article published recently in Chhattisgarh about spider.
<b>Is the language/English quality of the article suitable for scholarly communications?</b>	The language and English quality of the article are generally suitable for scholarly communication. However, a few sentences could be rephrased for better clarity and flow. There are minor grammatical issues that need attention to ensure accuracy and precision. A thorough proofreading would improve the overall readability and academic tone of the manuscript.	The English quality are minor grammatically not better but proof reading can increase quality.
<b><u>Optional/General</u> comments</b>	---	The manuscript is describe the Diversity of spider species in North East region of Gariaband, Chhattisgarh, India.

**PART 2:**

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>	Manuscript are ethical. It is good, pure and original article.
